Submission Guidelines

2nd National Conference on Infectious Disease Modeling 2024

Abstract deadline extension: **28/01/2024**

Abstractsubmission for Orals and Poster:
https://webszh.uk-halle.de/limesurvey/index.php/771823?lang=en

Oral Description

- A oral session is a 60-minute session, divided into several presentations of approximately 5-10 min, including Q&A.
- Number and presentation time are depending on submitted abstracts. The details of the formalities will be announced after the submission deadline.
- Organized around a specific theme.
- Presenters from different consortia preferred.
- Submit an abstract with 2500 characters maximum (including spaces).
- If you submit your abstract for „Oral", you will not be offered a poster as an alternative, if you are not selected for an oral presentation.
- If you submit your abstract for „Oral or Poster", you have the option of presenting a poster alternatively, if you are not selected for an oral presentation.

Poster Description

- A poster session showcases your research and allows viewers to study your information and discuss it with you one-on-one.
- There will be one poster sessions held on Wednesday (March 13, 2024).
- Successful poster presentations rely heavily on graphical presentation of key findings and large font sizes so that they can be read from a distance. Less content and greater readability is often preferable.
- Submit an abstract with 2500 characters maximum (including spaces).
- Presenters must attend their poster session and young scientists are additionally invited to present in the Elevator pitch.

Elevator Pitch Description

- Only available in combination with a poster.
- Especially young scientists (PhD student and up to 3 years PostDoc time) are invited to give a preview of their poster in a 1-minute talk supported by 1 slide.
- Each presenter must have 1 power point slide prepared and send beforehand to modellierungsnetz@medizin.uni-halle.de until **29/02/2024 the latest.**

Guidelines for Submission and Presentation
- Abstracts should be 2500 character maximum (including spaces).
- Co-authors must be entered at the time of submission. In exceptional cases, they can only be added by email to modellierungsnetz@medizin.uni-halle.de after submission.
- Before submission, please check that the first and last names of authors are not transposed and affiliation information is accurate. Review your abstract and check for typographical and spelling errors, and scientific sense.
- In order for your submission to be considered complete, you must click on the "Submit" button. Note: Once an entry has been submitted, you can only make further changes via e-mail contact until the deadline.
- All presenters must register to attend the MONID 2024 conference.
- The MONID 2024 „2nd National Conference on Infectious Disease Modeling" is scheduled for March 13-14, 2024. By submitting, you agree to present on any of those days.
- If the presenting author cannot attend, presentation by a co-author or colleague familiar with the research is requested. Notify modellierungsnetz@medizin.uni-halle.de with the name of the new presenter.
- After all abstracts have been reviewed, you will receive an e-mail informing you whether you have been selected for your preferred and submitted format, including details of the formalities.
